## Market Update

### Equity

Ukrainian equities ended lower on Thursday (Jun 20), though by considerably less than the main European indices, which got clobbered to the tune of 3% as investors began to see the end of US quantitative easing as a question of when, not if. A shortage of sellers at current pricing levels appears to be supporting the local market from sharper drops on global volatility. The UX index lost 1.5%, closing at 847 points. The UX's recent top two performers, CentrEnergo and DonbasEnergo, were the day's heaviest decliners, sliding 2.5% and 3.0% respectively on combined turnover of UAH 2.7mn. Motor Sich dropped by 1.3% to UAH 1968, while Alchevsk Steel (+0.2%) outperformed the rest of the UX basket thanks to a launch ceremony for the company's new in-house power station attended by President Yanukovych. In London, all the top Ukrainian names were hit, led by Avangard's slump of 8.2% to USD 8.40, and Kernel was down by 5.1% in Warsaw.

### **Fixed Income**

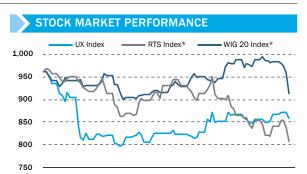

Ukrainian sovereign Eurobonds were down across the board on Thursday. Ukraine-23s declined by 1.6p.p. closing at 87.7/88.7 (9.5%/9.3%) and Ukraine-21s slid by 2.7p.p. to 92.0/93.0 (9.4%/9.2%). Corporate names were also lower. Metinvest-18s dropped by 2.3p.p. to 94.4/95.9 (10.3%/9.9%) and MHP-20s slid by 1.3p.p. to 92.2/94.1 (9.9%/9.4%).

#### NEWS

Ukraine's State Property Fund (SPF) announced its intention to privatize the 75.2% stake in Kharkiv-based turbine producer TurboAtom in December of this year, in a statement published on the SPF website. In the statement, however, the SPF noted that the privatization still requires the approval of the Cabinet of Ministers to go forward. SPF Chairman Olexander Ryabchenko said that TurboAtom is a highly profitable company capable of financing its development via its own cash flow, and that the sale will take place only if potential investors make a very attractive offer.

#### COMMENTARY

TurboAtom, one of Ukraine's most valuable remaining state-owned enterprises, had long been on the list of strategic assets not subject to privatization before finally being removed in late 2010. The highly profitable company is de-facto controlled by its CEO Victor Subbotin, who personally owns a stake of only 2% but has the backing of the government shareholding. We see several potential bidders for TurboAtom, three of which are Russian: Power Machines, affiliated with steel industrialist Alexey Mordashov (currently owns a 5% stake in Turboatom); Russian state nuclear conglomerate RosAtom, one of Turboatom's biggest clients; and Constantine Grygorishin's Energy Standard group (currently owns around 15% of TurboAtom). Another visible challenger is Subbotin, who we believe has been maneuvering to delay or halt TurboAtom's privatization over the last several years. Subbotin, who is also the main beneficiary of Kharkiv-based MegaBank, has managed to effectively negotiate with the state to vote in his favor at the company's general meetings. Our current target price for the TATM stock is USD 1.09, which implies an upside of 79% to the UX listed price and an enterprise value of USD 170mn.

## EAVEX RECOMMENDATIONS

Name	Ticker	Price, USD per share	Target price, USD per share	Upside, %	Rating	Commentary
Steel&Pipes						
Azovstal	AZST	0.08	0.07	-10%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Iron Ore						
Ferrexpo	FXPO LN	2.26	3.33	47%	BUY	Operations at Ferrexpo's new Yeristovo Mine should allow the company to increase its iron ore pellet output by 10% YoY to 10.6mn tonnes in 2013, with further growth to 12.0mn tonnes in 2015.
Pivnichny GOK	SGOK	0.96	1.77	83%	BUY	Secure demand for Pivnichny GOK's iron ore products and lucrative pricing allow the company to operate with high profitability (EBITDA margin of not lower than 45% since 2009). Disadvantages of th stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Centralny GOK	CGOK	0.82	1.30	58%	BUY	Centralny GOK operates in the highly profitable iron ore industry; its EBITDA margin has remained above 35% since 2009. Disadvantages of the stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Coke						
Avdyivka Coke	AVDK	0.40	0.76	92%	BUY	AVDK's order book is secure thanks to its integration with Metinvest, Ukraine's largest M&M holding.
Yasynivsky Coke	YASK	0.07	0.42	486%	BUY	Yasynivsky Coke benefits from steady demand for its output both in Ukraine & abroad thanks to the high quality of its coke relative to other domestic producers.
Coal						
Pokrovske Mine	SHCHZ	0.06	0.36	511%	BUY	We expect Pokrovske Mine to double its coking coal extraction to 9.5mn tonnes over 2010-15.
Railcar Manufacturing						
Krukiv Wagon	KVBZ	2.72	6.18	128%	BUY	Having achieving its post-1991 production maximum in 2011, Krukiv Wagon's revenue should rise at a 7% CAGR in 2012-2016E, with the EBITDA and net margins for the period near 15% and 11%, respectively.
LuganskTeplovoz	LTPL	0.19	0.64	228%	BUY	LuganskTeplovoz's incorporation into TransMashHolding should help it to exploit its already-dominant position on the Russian market for diesel locomotives.
Specialized Machinery						
Motor Sich	MSICH	242	644	167%	BUY	Motor Sich should see its sales grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012- 2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Turboatom	TATM	0.61	1.09	79%	BUY	We model Turboatom's revenue as increasing at 18% CAGR over 2012-2015. Deliveries of hydro and steam turbines to export markets will remain the company's key revenue drivers.
Oil & Gas						
Concern Galnaftogaz	GLNG	0.018	0.030	63%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	0.30	1.52	409%	BUY	We assume that Regal will be able to produce 5,200 boepd in 2014, generating USD 116mn in sales.
JKX Oil & Gas	JKX	0.8	6.0	697%	BUY	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnergo	DOEN	2.67	8.90	233%	BUY	DonbasEnergo is Ukraine's next big-ticket privatization object, with an auction expected to be an- nounced in summer 2013.
CenterEnergo	CEEN	0.56	1.84	226%	BUY	CentrEnergo's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Consumer						
МНР	MHPC	17.6	24.0	36%	BUY	MHP launched production at Phase 1 of its new Vinnitsya poultry complex in late 2012. This will allow the company to expand its poultry production by some 60,000 tonnes in 2013, up from the current 384,000 tonnes.
Astarta	AST	19.95	30.0	50%	BUY	Astarta's business leans on three pillars: sugar beet cultivation/processing, grain cultivation, and cattle farming. With sugar prices depressed since 2011, a favorable market for grain should continue to drive the company's profitability.
Avangardco	AVGR	8.40	U/R	n/a	U/R	The company ended 1Q13 with a 6% YoY increase in sales thanks to an expansion of the production. Higher operational results failed to compensate for a 8% YoY drop on selling price for eggs further exacerbated by inflated production costs. This led to decline in both EBITDA and net margins by 10p.p YoY to 45% and 39%, respectively in 1Q13.

Investing in emerging markets' securities may entail certain risks. There may be limited information available on such securities. Securities of emerging markets' companies may be less liquid and their prices more volatile than securities of comparable developed markets' companies. In addition, exchange rate movements may have an adverse effect on the value of an investment.
