

Market Update

Equity

Kyiv-listed equities were lower for a third straight session on Wednesday (Oct 30) after news that Naftogaz has not settled its USD 880mn payment for August Russian gas imports seemed to spook the local market. Externally, the main US indices retreated slightly from their record highs while European benchmarks were nearly flat. The UX index dropped 1.0% to close at 860 points. Alchevsk Steel (ALMK), Avdyivka Coke (AVDK), and UkrNafta (UNAF) all lost in the range of 2%, while volume leader Motor Sich (MSICH) was down 1.4% to UAH 1540 and Raiffeisen Aval (BAVL) slipped by the same increment on turnover of UAH 850,000. Outside the UX basket, LuganskTeplovoz (LTPL) shed 1.6% to UAH 1.53. In Warsaw, Kernel (KER PW) gave back its rebound from Tuesday, falling 4.9% and ending at a new 40-month low of PLN 41.80.

Fixed Income

Ukrainian sovereigns were little-changed on Wednesday, with longterm benchmark Ukraine-23s inching up by 0.1p.p. to 87.3/88.3 (9.6%/9.4%). Corporate names finished mixed. Metinvest-15s added 0.9p.p. to 101.3/101.7 (9.7%/9.4%) while UkrLandFarming-18s edged down by 0.2p.p. to 91.8/93.6 (13.4%/12.8%).

3Q13 GDP Decline Worse Than Expected at 1.5% YoY

by Dmitry Churin d.churin@eavex.com.ua

NEWS

Ukraine's GDP fell by 1.5% YoY in 3Q13, according to preliminary data from the State Statistics Committee (UkrStat) published on Wednesday (Oct 30). The data also showed that the country's seasonal adjusted GDP moved down by 0.4% QoQ in 3Q13. This follows a year-on-year GDP drop of 1.3% registered by UkrStat in the second quarter.

Source: State Statistics Committee, Eavex Research

COMMENTARY

The latest GDP data is considerably below most analysts' expectations, and demonstrates that any hopes that Ukraine might finish 2013 with slight full-year economic growth are unrealistic. We had previously forecasted that Ukraine's GDP would increase by 0.2% in 2013. We see the biggest reasons for the poor economic performance in 3Q as being the lack of a rebound in sluggish industrial production (especially machinery) amid political tensions with Russia and only moderate improvement on steel export markets. However, we note that poor harvesting weather throughout September may have also played a role, and given the much-improved weather in October, we would expect some of the positive harvest contribution to GDP to be transferred to the fourth quarter. The start of an economy recovery in the EU and a lower comparative base make us believe that Ukraine's GDP will finally end five consecutive quarters year-on-year contractions in 4Q.

EAVEX RECOMMENDATIONS

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Steel&Pipes						
Azovstal	AZST	0.66	0.56	-16%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Iron Ore						
Ferrexpo	FXPO LN	188.7	205.0	9%	BUY	Operations at Ferrexpo's new Yeristovo Mine should allow the company to increase its iron ore pellet output by 10% YoY to 10.6mn tonnes in 2013, with further growth to 12.0mn tonnes in 2015.
Pivnichny GOK	SGOK	7.80	14.5	85%	BUY	Secure demand for Pivnichny GOK's iron ore products and lucrative pricing allow the company to operate with high profitability (EBITDA margin of not lower than 45% since 2009). Disadvantages of the stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Centralny GOK	CGOK	6.60	10.6	61%	BUY	Centralny GOK operates in the highly profitable iron ore industry; its EBITDA margin has remained above 35% since 2009. Disadvantages of the stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Coke						
Avdyivka Coke	AVDK	3.14	6.2	99%	BUY	AVDK's order book is secure thanks to its integration with Metinvest, Ukraine's largest M&M holding.
Yasynivsky Coke	YASK	0.57	3.4	503%	BUY	Yasynivsky Coke benefits from steady demand for its output both in Ukraine & abroad thanks to the high quality of its coke relative to other domestic producers.
Coal						
Pokrovske Mine	SHCHZ	0.45	2.9	554%	BUY	We expect Pokrovske Mine to double its coking coal extraction to 9.5mn tonnes over 2010-15.
Railcar Manufacturing						
Krukiv Wagon	KVBZ	17.2	50.5	194%	BUY	Having achieving its post-1991 production maximum in 2011, Krukiv Wagon's revenue should rise at a 7% CAGR in 2012-2016E, with the EBITDA and net margins for the period near 15% and 11%, respectively.
LuganskTeplovoz	LTPL	1.53	5.2	242%	BUY	LuganskTeplovoz's incorporation into TransMashHolding should help it to exploit its already-dominant position on the Russian market for diesel locomotives.
Specialized Machinery						
Motor Sich	MSICH	1540	5250	241%	BUY	Motor Sich should see its sales grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012- 2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Turboatom	TATM	5.00	8.9	78%	BUY	We model Turboatom's revenue as increasing at 18% CAGR over 2012-2015. Deliveries of hydro and steam turbines to export markets will remain the company's key revenue drivers.
Oil & Gas						
Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	15.1	42.0	178%	BUY	We assume that Regal will be able to produce 5,200 boepd in 2014, generating USD 116mn in sales.
JKX Oil & Gas	JKX	74.5	370	397%	BUY	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnergo	DOEN	24.3	72.0	196%	BUY	DonbasEnergo is Ukraine's next big-ticket privatization object, with an auction expected to be an- nounced in summer 2013.
CenterEnergo	CEEN	4.96	15.00	203%	BUY	CentrEnergo's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Consumer						
МНР	МНРС	15.8	22.10	40%	BUY	MHP is well on track with ramping up its poultry production at launched in late 2012 greenfield Vinnytsia complex with annual capacity of 220,000 tonnes. We think MHP will be able to expand its output by 50% over 2012-15 to 600,000 tonnes of poultry with the lion's share of incremental volume to be exported.
Astarta	AST	65.2	90.0	38%	BUY	Astarta's business leans on three pillars: sugar beet cultivation/processing, grain cultivation, and cattle farming. With sugar prices depressed since 2011, a favorable market for grain should continue to drive the company's profitability.
Avangardco	AVGR	12.8	U/R	n/a	U/R	The company ended 1Q13 with a 6% YoY increase in sales thanks to an expansion of the production. Higher operational results failed to compensate for a 8% YoY drop on selling price for eggs further exacerbated by inflated production costs. This led to decline in both EBITDA and net margins by 10p.p. YoY to 45% and 39%, respectively in 1Q13.

Investing in emerging markets' securities may entail certain risks. There may be limited information available on such securities. Securities of emerging markets' companies may be less liquid and their prices more volatile than securities of comparable developed markets' companies. In addition, exchange rate movements may have an adverse effect on the value of an investment.

This document is based on data we deem to be reliable, though we do not guarantee its accuracy or completeness and make no warranties regarding results from its usage. Forecasts are estimates by specialists working for us, and actual events may turn out to be fundamentally different due to unforeseen circumstances. This document is provided for information purposes only.
