December 20, 2013

### **Market Update**

#### Equity

Ukrainian equities ended lower on Thursday (Dec 19), with the local market failing to get a bounce from the preceding day's strong rally on Wall Street after the Federal Reserve left USD 75bn in monthly monetary stimulus intact for the US economy heading into 2014. In contrast to the DAX and the FTSE, which both latched onto the Fed's coattails by adding about 1.5% each on Thursday, the UX index ended down 0.7% at 910 points. The drop would have been substantially larger if not for Motor Sich, which advanced solidly for a second day on the Russian bailout deal, picking up 2.0% to UAH 1700 on the nose. Most other blue chips essentially gave back all their gains from Wednesday, with Raiffeisen Aval and Azovstal falling 2.1% and 1.7% respectively on combined turnover of UAH 1.4mn. In London, MHP jumped by 3.3% to reclaim the USD 17 level, while in Warsaw, Ovostar added 4.7% to PLN 89.

#### **Fixed Income**

Ukrainian sovereigns were lower on Thursday with Ukraine-23s declining by 0.6p.p. to 90.2/92.0 (9.1%/8.8%). Meanwhile, corporate names finished mostly in the black with DTEK-18s improving by 1.3p.p. and closing at 93.7/94.6 (9.7%/9.4%).

# Azarov: Ukraine, Russia to Resume An-124 Aircraft Production

by Dmitry Churin

## MOTOR SICH (MSICH UK)

Price: UAH 1,700 Market Cap: USD 427mn

	P/B	EV/S	P/E	EV/EBITDA	Div. Yield
2012	0.4	0.5	2.1	1.5	0.6%
2013E	0.4	0.4	2.3	1.9	1.8%

#### **NEWS**

Prime Minister Nikolay Azarov said the latest agreements with Russia included an item regarding the resumption of the project to build the An-124 cargo jet aircraft (also known as the "Condor"), the Kyiv business daily *Kommersant* reported on Thursday (Dec 19). The preliminary program foresees production of 80 aircraft to be sold for around USD 160mn per unit. The An-124 is the world's second-highest gross weight cargo airplane behind the Boeing 747-8F, and is also the world's third-heaviest operating cargo aircraft.

#### **COMMENTARY**

Motor Sich has been the exclusive supplier of D-18 engines for An-124. The An-124 has four D-18 engines with an estimated value of USD 8mn each. Therefore, the company's total potential revenues from future orders for D-18 engines could amount to as much as USD 2.5bn. Admittedly, there is no certainty about whether the units will actually be built. Production of the An-124 was suspended in 1991 after the Soviet breakup and has not been resumed since. Local investors still have many concerns regarding the success of the declared plans; otherwise the news would be a strong driver for the MSICH stock in the medium term.

## **Recommendations**

December 20, 2013

## **EAVEX RECOMMENDATIONS**

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Steel&Pipes						
Azovstal	AZST	0.70	0.56	-21%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Iron Ore						
Ferrexpo	FXPO LN	182.8	218.0	19%	BUY	Operations at Ferrexpo's new Yeristovo Mine should allow the company to increase its iron ore pellet output by 10% YoY to 10.6mn tonnes in 2013, with further growth to 12.0mn tonnes in 2015.
Pivnichny GOK	SGOK	8.06	14.5	79%	BUY	Secure demand for Pivnichny GOK's iron ore products and lucrative pricing allow the company to operate with high profitability (EBITDA margin of not lower than 45% since 2009). Disadvantages of the stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Centralny GOK	CGOK	6.49	10.6	64%	BUY	Centralny GOK operates in the highly profitable iron ore industry; its EBITDA margin has remained above 35% since 2009. Disadvantages of the stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Coke						
Avdyivka Coke	AVDK	3.07	6.2	103%	BUY	AVDK's order book is secure thanks to its integration with Metinvest, Ukraine's largest M&M holding.
Yasynivsky Coke	YASK	0.53	3.4	552%	BUY	Yasynivsky Coke benefits from steady demand for its output both in Ukraine & abroad thanks to the high quality of its coke relative to other domestic producers.
Coal						
Pokrovske Mine	SHCHZ	0.43	2.9	580%	BUY	We expect Pokrovske Mine to double its coking coal extraction to 9.5mn tonnes over 2010-15.
Railcar Manufacturing						
Krukiv Wagon	KVBZ	16.7	U/R	-	U/R	
LuganskTeplovoz	LTPL	1.36	5.2	285%	BUY	LuganskTeplovoz's incorporation into TransMashHolding should help it to exploit its already-dominant position on the Russian market for diesel locomotives.
Specialized Machinery						
Motor Sich	MSICH	1700	5250	209%	BUY	Motor Sich should see its sales grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012-2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Turboatom	TATM	5.00	8.9	78%	BUY	We model Turboatom's revenue as increasing at 18% CAGR over 2012-2015. Deliveries of hydro and steam turbines to export markets will remain the company's key revenue drivers.
Oil & Gas						
Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	12.0	42.0	250%	BUY	We assume that Regal will be able to produce 5,200 boepd in 2014, generating USD 116mn in sales.
JKX Oil & Gas	JKX	71.5	370	417%	BUY	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnergo	DOEN	27.7	72.0	160%	BUY	DonbasEnergo is expected to pay a significant dividend from its FY13 profit that could amount to as much as UAH 5.0 per share, implying a dividend yield of 20%.
CenterEnergo	CEEN	4.83	15.00	211%	BUY	CentrEnergo's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Consumer						
МНР	MHPC	17.0	22.10	30%	BUY	MHP is ramping up poultry production at its greenfield Vinnytsia complex, which has annual capacity of 220,000 tonnes. We think MHP will be able to expand its output by 50% over 2012-15 to 600,000 tonnes of poultry, with the lion's share of incremental volume to be exported.
Astarta	AST	63.5	90.0	42%	BUY	Astarta's business leans on three pillars: sugar beet cultivation/processing, grain cultivation, and cattle farming. With sugar prices depressed since 2011, a favorable market for grain should continue to drive the company's profitability.
AvangardCo	AVGR	11.5	19.35	68%	BUY	A doubling of egg processing capacity to 6mn eggs/day in 1H13 with further expansion to 10mn in early 2014 bode well for the group's earnings due to 1) the higher profitability of the egg products (EP) segment vs. shell eggs and 2) the longer storage life of EP, which enables the company to retain its ouput for sale in periods of more favorable pricing. Still, the reported selling price for the company's shell eggs appears to be unjustifiably high. Even with financial quality concerns priced in, the stock looks cheap vs. its global peers.
Ovostar Union	OVO	89.0	109.50	23%	BUY	The company is on its way to implementing a two-stage investment program aimed at expanding egg production capacity to 2.1bn pieces by 2017, or 3x more compared to FY12 production of 719mn eggs. Very low liquidity in the OVO stock is a major concern.

Investing in emerging markets' securities may entail certain risks. There may be limited information available on such securities. Securities of emerging markets' companies may be less liquid and their prices more volatile than securities of comparable developed markets' companies. In addition, exchange rate movements may have an adverse effect on the value of an investment.

This document is based on data we deem to be reliable, though we do not guarantee its accuracy or completeness and make no warranties regarding results from its usage. Forecasts are estimates by specialists working for us, and actual events may turn out to be fundamentally different due to unforeseen circumstances.
