

Market Update

Equity

Kyiv-listed Ukrainian blue chips continued to slide back toward their levels of this autumn in trading on Wednesday (Dec 25), with all the main global bourses except for those in Asia shut for Christmas. The local market had rallied modestly in previous months on expectations that the government would conclude a free trade deal with the European Union. The UX index fell 1.2% to close at 885 points. All the top liquid names with the exception of Raiffeisen Aval (BAVL, +1.0%) were losers on the day, with CentrEnerg (CEEN) and Azovstal (AZST) each declining by 1.7% and ending at UAH 4.59 and 65 kopecks respectively. Motor Sich (MSICH) saw its 5-session winning streak snapped with a 1.4% drop on turnover of UAH 1.5mn. Outside the UX basket, Krukiv Wagon (KVBZ) and Interpipe (NVTR) posted respective declines of 2.4% and 4.7%. Foreign-listed Ukrainian issues saw no trading action due to the holiday closure.

Fixed Income

Ukrainian sovereign Eurobonds were mostly higher yesterday after three previous days of correction, with benchmark Ukraine-23s improving by 0.5p.p. to 90.0/92.0 (9.1%/8.8%). Corporate names saw few significant changes. MHP-15s finished flat at 103.0/104.0 (8.3%/7.5%) and Metinvest-18s inched up by 0.1p.p. closing at 94.0/95.9 (10.7%/10.1%).

Yanukovich Condemns Attack on Opposition Activist; 2 Arrested

by Will Ritter
w.ritter@eavex.com.ua

NEWS

President Yanukovich on Wednesday (Dec 25) condemned the an assault on an opposition political activist which took place in the early morning hours yesterday and tasked Interior Minister Vitaliy Zakharchenko and Prosecutor General Viktor Pshonka with finding the assailants, Interfax reported. The attack on Tanya Chornovil just outside Kyiv, which saw her sent to hospital with serious facial injuries, drew condemnation from the OSCE, the US Embassy, and other international bodies. Chornovil had a video camera in her car which recorded the license plate of the attackers' vehicle, and Interfax reports that two arrests have been made.

COMMENTARY

Chornovil, 34, is a well-known figure in the Ukrainian media thanks to her penchant for high-profile publicity stunts (the best-known of which was in August 2012, when she sneaked onto the grounds of President Yanukovich's private residence and spent two hours filming) and is a prime example of the blurring of the line between journalism and politics in the country. In addition to the President, Chornovil had also conducted exposes on the residences of the very officials – Pshonka and Zakharchenko - charged with investigating her attack. Due to her notoriety for brazen reporting and political partisanship (she unsuccessfully ran for Parliament last year in a Lviv oblast district), Chornovil was an obvious target for anyone wishing to raise the temperature of the current political standoff; to us, the most obvious explanation for the attack is that it was carried out by pro-Russian hardliners wishing to further undermine the government of President

Yanukovich by injecting new life into the ongoing EuroMaidan street protest movement. However, it obviously cannot be ruled out that someone high up in the government who had been targeted by the activist was responsible, or even that this could have been a deliberate provocation by radical violent elements in the opposition. We hope and expect that information those detained will shed further light on the situation.

EAVEX RECOMMENDATIONS

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Steel&Pipes						
Azovstal	AZST	0.65	0.56	-14%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Iron Ore						
Ferrexpo	FXPO LN	184.0	218.0	18%	BUY	Operations at Ferrexpo's new Yeristovo Mine should allow the company to increase its iron ore pellet output by 10% YoY to 10.6mn tonnes in 2013, with further growth to 12.0mn tonnes in 2015.
Pivnichny GOK	SGOK	8.00	14.5	81%	BUY	Secure demand for Pivnichny GOK's iron ore products and lucrative pricing allow the company to operate with high profitability (EBITDA margin of not lower than 45% since 2009). Disadvantages of the stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Centralny GOK	CGOK	6.49	10.6	64%	BUY	Centralny GOK operates in the highly profitable iron ore industry; its EBITDA margin has remained above 35% since 2009. Disadvantages of the stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Coke						
Avdyivka Coke	AVDK	3.01	6.2	107%	BUY	AVDK's order book is secure thanks to its integration with Metinvest, Ukraine's largest M&M holding.
Yasynivsky Coke	YASK	0.53	3.4	554%	BUY	Yasynivsky Coke benefits from steady demand for its output both in Ukraine & abroad thanks to the high quality of its coke relative to other domestic producers.
Coal						
Pokrovske Mine	SHCHZ	0.37	2.9	696%	BUY	We expect Pokrovske Mine to double its coking coal extraction to 9.5mn tonnes over 2010-15.
Railcar Manufacturing						
Krukiv Wagon	KVBZ	16.4	U/R	--	U/R	
LuganskTeplovoz	LTPL	1.47	5.2	256%	BUY	LuganskTeplovoz's incorporation into TransMashHolding should help it to exploit its already-dominant position on the Russian market for diesel locomotives.
Specialized Machinery						
Motor Sich	MSICH	1716	5250	206%	BUY	Motor Sich should see its sales grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012-2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Turboatom	TATM	5.00	8.9	78%	BUY	We model Turboatom's revenue as increasing at 18% CAGR over 2012-2015. Deliveries of hydro and steam turbines to export markets will remain the company's key revenue drivers.
Oil & Gas						
Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	12.5	42.0	236%	BUY	We assume that Regal will be able to produce 5,200 boepd in 2014, generating USD 116mn in sales.
JKX Oil & Gas	JKX	71.9	370	415%	BUY	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnergO	DOEN	27.2	72.0	165%	BUY	DonbasEnergO is expected to pay a significant dividend from its FY13 profit that could amount to as much as UAH 5.0 per share, implying a dividend yield of 20%.
CenterEnergO	CEEN	4.59	15.00	227%	BUY	CenterEnergO's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Consumer						
MHP	MHPC	17.0	22.10	30%	BUY	MHP is ramping up poultry production at its greenfield Vinnytsia complex, which has annual capacity of 220,000 tonnes. We think MHP will be able to expand its output by 50% over 2012-15 to 600,000 tonnes of poultry, with the lion's share of incremental volume to be exported.
Astarta	AST	63.0	90.0	43%	BUY	Astarta's business leans on three pillars: sugar beet cultivation/processing, grain cultivation, and cattle farming. With sugar prices depressed since 2011, a favorable market for grain should continue to drive the company's profitability.
AvangardCo	AVGR	11.7	19.35	66%	BUY	A doubling of egg processing capacity to 6mn eggs/day in 1H13 with further expansion to 10mn in early 2014 bode well for the group's earnings due to 1) the higher profitability of the egg products (EP) segment vs. shell eggs and 2) the longer storage life of EP, which enables the company to retain its output for sale in periods of more favorable pricing. Still, the reported selling price for the company's shell eggs appears to be unjustifiably high. Even with financial quality concerns priced in, the stock looks cheap vs. its global peers.
Ovostar Union	OVO	93.0	109.50	18%	BUY	The company is on its way to implementing a two-stage investment program aimed at expanding egg production capacity to 2.1bn pieces by 2017, or 3x more compared to FY12 production of 719mn eggs. Very low liquidity in the OVO stock is a major concern.

Investing in emerging markets' securities may entail certain risks. There may be limited information available on such securities. Securities of emerging markets' companies may be less liquid and their prices more volatile than securities of comparable developed markets' companies. In addition, exchange rate movements may have an adverse effect on the value of an investment.

This document is based on data we deem to be reliable, though we do not guarantee its accuracy or completeness and make no warranties regarding results from its usage. Forecasts are estimates by specialists working for us, and actual events may turn out to be fundamentally different due to unforeseen circumstances. This document is provided for information purposes only.
