

Market Update

Equity

Most local Ukrainian blue chips were lower in the first trading session of 2014 on Wednesday (Jan 8), following the general early-year trend seen in the main global bourses (which reopened on Jan 2), as investors have appeared rather cautious about buying in the wake of 2013's huge gains. The UX index ended the day down 1.0% at 901 points. Volume leader CentrEnerg (CEEN) was the biggest decliner, sliding 2.5% to UAH 4.65, and Raiffeisen Aval (BAVL) and UkrNafta (UNAF) lost 2.3% and 1.5% respectively. Motor Sich (MSICH) continued its strong form from December, adding 0.7% to UAH 1830. In London, the two most active Ukrainian issues have been moving in opposite directions since the start of the year, with Ferrexpo (FXPO) dropping by 4.6% since Jan 2, while MHP (MHPC) has risen 5.7%, closing yesterday at USD 18.15.

Fixed Income

Quotes for Ukrainian sovereign Eurobonds were lower yesterday with Ukraine-23s declining 0.7 p.p. to close at 91.9/93.4 (8.8%/8.5%). Medium term Ukraine-17s inching down by 0.3% to 95.8/96.6 (8.1%/7.9%). In corporate issues, UkrLandFarming-18s gained 0.7 p.p. ending the day at 91.0/92.5 (13.8%/13.3%).

Klitschko Calls for Single Opposition Presidential Candidate

by Will Ritter
w.ritter@eavex.com.ua

NEWS

UDAR party leader Vitaliy Klitschko said on Tuesday (Jan 7) that Ukraine's opposition forces should nominate a single candidate to run against President Yanukovich in the election due in February 2015, Interfax reported, citing the UDAR press service. "The democratic forces must nominate and support a single candidate in the presidential election... how can we speak of a single team, if there will be several candidates?" Klitschko was quoted as saying. Klitschko's comments are in apparent conflict with remarks made on Jan 5 by Batkivschyna party leader Arseniy Yatseniuk, who said that the leaders of the three main opposition parties (Klitschko, Yatseniuk, and Svoboda Union chief Oleg Tiahnybok) will each run separately in the first round of the presidential election, with the winner then receiving the backing of the other two in a second round (runoff), presumably against Yanukovich. According to the election format in place since 1994, the runoff occurs if no candidate wins at least 50% of the vote in the first round.

COMMENTARY

The conflicting statements by the top two opposition leaders underscore that uniting the opposition behind a single candidate for 2015 is likely to be a messy process despite Klitschko's big lead over his competitors in recent opinion polls. Our current view is that Yatseniuk and Tiahnybok are ultimately unviable as presidential candidates, leaving Klitschko and non-party MP and oligarch Petro Poroshenko as the two top contenders to take on Yanukovich. Klitschko has been quite aggressive in his positioning, playing to the radical side of the EuroMaidan protests with calls for the dissolution of the government, early elections and a general strike; Poroshenko, a moderate who understands how to work the all-important middle ground of Ukrainian politics, has not yet clearly indicated whether he plans to run. We note that a wildcard in the opposition race could be an unexpected early release from prison of former prime minister Yulia Tymoshenko, who would probably set off an intense burst of competition by trying to claim the mantle of opposition leader.

UkrStat: 2013 Headline Inflation Was Just 0.5%

by Dmitry Churin
d.churin@eavex.com.ua

NEWS

Ukraine's State Statistics Committee (UkrStat) reported that consumer prices rose by 0.5% YoY over full-year 2013, according to data published earlier this week. On a monthly basis, December's CPI inflation was also 0.5%. Producer prices increased by 0.7% MoM, with the 12-month change at +1.7%.

UKRAINE'S ROLLING 12-MONTH CPI & PPI INFLATION

Source: State Statistics Committee

COMMENTARY

While the very low reported inflation figure for FY13, which was well below all analyst forecasts, could partially be a product of manipulation of the CPI basket by UkrStat (a government-controlled agency), it is clear that price increases for most basic goods and services have been rather tame over the past two years. Although this can on the one hand be viewed as a positive achievement by the current government, it is also a telltale sign of a stagnant and zero-growth economy.

Among the CPI basket components, alcohol and tobacco products prices rose the most in 2013, increasing 10.1% due to higher excise taxes. A notable price increase was also registered in healthcare services, which became more expensive by 3.0%. The closely-watched and tightly-controlled prices for utility services rose by a negligible 0.3% YoY in 2013.

In the PPI components, the biggest price increase was observed for sugar and milk products, which became more expensive by 17.0% and 15.3% respectively in 2013. Meanwhile, prices in the manufacturing sector inched down by 0.2% YoY in the period. Prices in the extraction sector rose by 5.8% YoY.

Our base-case forecasts for 2014 foresees consumer inflation of 5.7% and producer price inflation of 3.5%.

EAVEX RECOMMENDATIONS

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Steel&Pipes						
Azovstal	AZST	0.66	0.56	-15%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Iron Ore						
Ferrexpo	FXPO LN	180.0	218.0	21%	BUY	Operations at Ferrexpo's new Yeristovo Mine should allow the company to increase its iron ore pellet output by 10% YoY to 10.6mn tonnes in 2013, with further growth to 12.0mn tonnes in 2015.
Pivnichny GOK	SGOK	8.00	14.5	81%	BUY	Secure demand for Pivnichny GOK's iron ore products and lucrative pricing allow the company to operate with high profitability (EBITDA margin of not lower than 45% since 2009). Disadvantages of the stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Centralny GOK	CGOK	6.50	10.6	63%	BUY	Centralny GOK operates in the highly profitable iron ore industry; its EBITDA margin has remained above 35% since 2009. Disadvantages of the stock are its low liquidity and no dividend in 2013 for the first time since 2005.
Coke						
Avdyivka Coke	AVDK	3.02	6.2	107%	BUY	AVDK's order book is secure thanks to its integration with Metinvest, Ukraine's largest M&M holding.
Yasynivsky Coke	YASK	0.53	3.4	548%	BUY	Yasynivsky Coke benefits from steady demand for its output both in Ukraine & abroad thanks to the high quality of its coke relative to other domestic producers.
Coal						
Pokrovske Mine	SHCHZ	0.40	2.9	634%	BUY	We expect Pokrovske Mine to double its coking coal extraction to 9.5mn tonnes over 2010-15.
Railcar Manufacturing						
Krukiv Wagon	KVBZ	17.3	U/R	--	U/R	
LuganskTeplovoz	LTPL	1.50	5.2	249%	BUY	LuganskTeplovoz's incorporation into TransMashHolding should help it to exploit its already-dominant position on the Russian market for diesel locomotives.
Specialized Machinery						
Motor Sich	MSICH	1830	5250	187%	BUY	Motor Sich should see its sales grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012-2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Turboatom	TATM	5.00	8.9	78%	BUY	We model Turboatom's revenue as increasing at 18% CAGR over 2012-2015. Deliveries of hydro and steam turbines to export markets will remain the company's key revenue drivers.
Oil & Gas						
Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	13.3	42.0	217%	BUY	We assume that Regal will be able to produce 5,200 boepd in 2014, generating USD 116mn in sales.
JKX Oil & Gas	JKX	72.0	370	414%	BUY	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnergO	DOEN	27.8	72.0	159%	BUY	DonbasEnergO is expected to pay a significant dividend from its FY13 profit that could amount to as much as UAH 5.0 per share, implying a dividend yield of 20%.
CenterEnergO	CEEN	4.65	15.00	223%	BUY	CenterEnergO's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Consumer						
MHP	MHPC	18.2	22.10	22%	BUY	MHP is ramping up poultry production at its greenfield Vinnytsia complex, which has annual capacity of 220,000 tonnes. We think MHP will be able to expand its output by 50% over 2012-15 to 600,000 tonnes of poultry, with the lion's share of incremental volume to be exported.
Astarta	AST	67.4	90.0	33%	BUY	Astarta's business leans on three pillars: sugar beet cultivation/processing, grain cultivation, and cattle farming. With sugar prices depressed since 2011, a favorable market for grain should continue to drive the company's profitability.
AvangardCo	AVGR	11.3	19.35	71%	BUY	A doubling of egg processing capacity to 6mn eggs/day in 1H13 with further expansion to 10mn in early 2014 bode well for the group's earnings due to 1) the higher profitability of the egg products (EP) segment vs. shell eggs and 2) the longer storage life of EP, which enables the company to retain its output for sale in periods of more favorable pricing. Still, the reported selling price for the company's shell eggs appears to be unjustifiably high. Even with financial quality concerns priced in, the stock looks cheap vs. its global peers.
Ovostar Union	OVO	94.9	109.50	15%	HOLD	The company is on its way to implementing a two-stage investment program aimed at expanding egg production capacity to 2.1bn pieces by 2017, or 3x more compared to FY12 production of 719mn eggs. Very low liquidity in the OVO stock is a major concern.

Investing in emerging markets' securities may entail certain risks. There may be limited information available on such securities. Securities of emerging markets' companies may be less liquid and their prices more volatile than securities of comparable developed markets' companies. In addition, exchange rate movements may have an adverse effect on the value of an investment.

This document is based on data we deem to be reliable, though we do not guarantee its accuracy or completeness and make no warranties regarding results from its usage. Forecasts are estimates by specialists working for us, and actual events may turn out to be fundamentally different due to unforeseen circumstances. This document is provided for information purposes only.
