

Market Update

Equity

Kyiv-listed stocks finished essentially unchanged on Friday (Jul 3), with news that the IMF has reached a staff-level agreement with Ukraine on the policies needed for disbursement of the next USD 1.7bn loan tranche not sufficient to spur purchases. The UX index inched up by a mere tenth of a percent to close at 1015 points. Heavyweights Motor Sich (MSICH) and CentrEnergO (CEEN) were the only actively traded names, and ticked up by 0.2% each, with the former ending at UAH 2738 per share. Raiffeisen Aval (BAVL) showed little reaction to a bill passed by Parliament that allows households to convert their foreign-denominated loans into hryvnia at a privileged exchange rate; the stock edged down by 0.3%. However, there are strong expectations that President Poroshenko will refuse to sign the bill. In London trading, Ferrexpo (FXPO) fell 1.6% to GBp 65.00 following another downward move in iron ore prices. Warsaw-listed Kernel (KER) retreated by 0.8% to close at PLN 37.90.

Fixed Income

Ukrainian sovereigns were higher across the board on Friday on optimism regarding restructuring talks, with Ukraine-23s improving by 1.6p.p. to 53.8/55.0 (19.2%/18.7%). Corporate names were sluggish. MHP-20s finished unchanged at 80.2/82.1 (14.1%/13.5%) and Metinvest-18s edged up by 0.3p.p. to 57.0/60.0 (35.3%/32.7%).

Poroshenko Likely to Veto Populist Banking Law

by Will Ritter
w.ritter@eavex.com.ua

NEWS

A controversial bill approved by Parliament last week that would allow households with outstanding foreign currency loans to convert those loans into hryvnia at non-market exchange rates won't be signed into law by President Poroshenko, according to Poroshenko Bloc deputy faction head Igor Kononenko. "I think that [Poroshenko] will veto [the bill], Kononenko was quoted by Interfax as saying on Friday (Jul 3). Although the bill was introduced by the small nationalist-populist Radical Party, it received considerable support from MPs in the mainstream governing parties as well. Kononenko called the bill "crazy" and said it would result in "minus 90 billion [UAH] for the country".

COMMENTARY

The loan currency conversion bill is a non-starter for the presidential administration and the government, as it violates the IMF loan requirements and would have disastrous consequences for Ukraine's banking system. Still, the fact that the bill was able to get parliamentary approval (it received 229 votes in favor, including a substantial number from the ruling Poroshenko Bloc and People's Front parties) demonstrates the ongoing threat that economic populism, especially among the so-called pro-Western and nationalist political parties, presents to the viability of the Ukrainian state. There was some political fallout from the vote, with Poroshenko Bloc (BPP) leader Yuriy Lutsenko quitting his post in an apparent response to his inability to whip the BPP vote against the bill; it is not clear whether Lutsenko, a key figure in Ukraine's pro-Western coalition, might end up reversing his decision. We note that in contrast to the left-wing government in Greece, where voters yesterday rejected an IMF bailout program by a wide margin, Ukraine's current authorities have been making a significant effort to comply with the IMF conditions, and we think this bodes well for continuing Western support of Ukraine despite obvious flaws in the reform process. In this sense, we see the turmoil in Greece over that country's bailout as actually being a positive factor for Kyiv, at least in the short term. Still, the elephant in the room remains preventing a re-escalation of the Donbass war, and nationalist pro-war populism is a serious issue for the government. Around 1,000 military volunteers marched and burned tires in central Kyiv on Friday (Jul 3) to demonstrate against the Minsk ceasefire agreement and in favor of renewing the war against pro-Russian separatists in Eastern Ukraine.

EAVEX RECOMMENDATIONS

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Agriculture						
Kernel	KER PW	37.9	56.50	49%	BUY	Hedging approach to making business, no devaluation risk, limited political risk due to lack of assets in the Donbass, and a U-turn in the farming segment in the 2014-15 season make Kernel's stock our current top investment story.
MHP	MHPC LI	10.5	15.32	47%	BUY	MHP plans to increase its poultry output by 10% YoY to 600,000 tonnes in 2015 operating at full capacity use of its brand-new Vinnytsia complex. The group intends to expand its landbank in Ukraine to 500,000 ha in the medium term from the current 290,000 ha.
Astarta	AST PW	30.0	36.1	20%	BUY	Astarta makes decisive moves toward business diversification (launch of soybean processing plant in early 2014) and cost optimization (launch of bioenergy complex in 2014). With no assets in the Donbass, material exposure of Astarta to UAH (50% of sales) is mostly offset with 60% of cost tied to UAH.
AvangardCo	AVGR LI	1.1	1.4	25%	SELL	Lost of the company's output at war-hit Donbass together with UAH devaluation will lead to lower EBITDA in 2015 after a 57% plunge in 2014.
Ovostar Union	OVO PW	78.5	80.8	3%	HOLD	Ovostar is one of the hardest-hit Ukrainian public companies from this year's UAH devaluation as some 70% of its production cost is linked to USD while only 15% of revenue earned in hard currency.
Iron Ore						
Ferrexpo	FXPO LN	64.5	48.0	-26%	SELL	Exacerbated issue of global ore oversupply together with sluggish growth in demand will likely keep iron ore prices at depressed level at least in the short run boding bad for Ferrexpo's earnings.
Steel						
Azovstal	AZST	0.80	0.56	-30%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Coke						
Avdyivka Coke	AVDK	1.14	U/R	--	Susp.	Avdyivka Coke experienced several artillery attacks since August 2014 due to its location near the border of occupied territory.
Specialized Machinery						
Motor Sich	MSICH	2738	5250	92%	BUY	Motor Sich should see its sales grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012-2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Oil & Gas						
Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	5.0	U/R	--	U/R	The company has been constantly missed production targets since 2012.
JKX Oil & Gas	JKX	26.8	U/R	--	U/R	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnergO	DOEN	22.0	U/R	--	U/R	DNR Intends to Nationalize DonbasEnergO-Owned Power Plant. The Starobeshevo plant accounts for about 70% of DonbasEnergO's installed power-generating capacity.
CenterEnergO	CEEN	7.74	15.00	94%	BUY	CentrEnergO's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Banks						
Raiffeisen Bank Aval	BAVL	0.090	0.24	168%	BUY	The bank has quite conservative risk policy therefore we assume it would weathered the current financial crisis in Ukraine and will start to generate solid profit starting from FY16.
