Market Update

Equity

Kyiv-listed stocks ended mixed on Thursday (Aug 20) amid a dry domestic news flow over the day. The UX index ticked down 0.1% to close at 975 points. UkrNafta (UNAF) continued to slide southward on this week's notable drop in global oil prices, edging lower by 0.6% to finish at a 2-month low of UAH 256. Electricity generators CentrEnergo (CEEN) and DonbasEnergo (DOEN) saw marginal gains of 0.3% and 0.6% respectively, with the former closing at UAH 7.20. On the interbank currency market, the hryvnia strengthened by 20 kopeck; bid/ask quotes ended at 21.90/22.07 UAH/USD. Londonlisted Ferrexpo (FXPO) gave up its gains from recent days, sliding back 7.0% to GBp 65, while MHP (MHPC) was unchanged at USD 9.40. In Warsaw, Astarta (AST) and Kernel (KER) slipped by 1.8% and 0.6%, following the downward trend on European stock markets.

Fixed Income

Ukrainian sovereigns were mostly lower on Thursday. Ukraine-17s declined by 1.4p.p. to 56.3/57.0 (45.9%/45.0%) and Ukraine-23s finished flat at 56.5/58.0 (18.3%/17.7%). Corporate names closed in the red. MHP-20s and UkrlandFarming-18s declined by 0.2p.p. and 2.0p.p. to 82.1/83.2 (13.6%/13.2%) and 61.0/63.0 (16.9%/16.3%), respectively.

Ukrainian Banking System Has Net Loss of UAH 2.5bn in July

by Dmitry Churin d.churin@eavex.com.ua

NEWS

The Ukrainian banking system had a net loss of UAH 2.5bn (USD 115mn) in July, compared to a net loss of UAH 5.4bn in June, according to the data from the National Bank of Ukraine published on Thursday (Aug 20). For 7M15 Ukrainian banking system, excluding insolvent banks, had total income of UAH 126bn and net loss of UAH 33.1bn (USD 1.5bn). Banks' total charges for loan loss provisions amounted to UAH 69bn in 7M15 compared to loan loss provisions of UAH 34bn in 7M14. The Ukrainian banking system consisted of 129 banks as of 1 Jul 2015 while as of 1 Jan 2015 it was 163 banks in the country. The banks' total regulatory capital was UAH 140bn (USD 6.5bn) and total assets were UAH 1.250 trillion (USD 58bn) as of 1 Jul 2015. The share of foreign banks in the Ukrainian banking system was 33%.

COMMENTARY

The Ukrainian banking system continue to suffer from economy contraction and the hryvnia devaluation with the official National Bank's UAH/USD exchange rate jumped from 15.77 UAH/USD to 22.03 UAH/USD as of today. The second factor, which is equally if not more subversive to stability, was an intense outflow of retail deposits from the system to the tune of some UAH 45bn this year. Although the situation in the Ukrainian banking system looks unsustainable, we believe that the 15 largest banks, which as of 1 Jul 2015 accounted for 80% of the system's assets, will withstand the pressure. Importantly, the banking system started to demonstrate improvement with the NBU reported that the banks' total net interesting income rising by 22.5% MoM to UAH 4.9bn in July and net commission income increasing 12.3% MoM to UAH 1.8bn for the same month.

Avangard Receives Green Light for Export Its Eggs to Israel

by Ivan Dzvinka i.dzvinka@eavex.com.ua

2014	ev/5 0.7	neg	2.2	0%						

NEWS

Avis, a brand-new subsidiary of Avangard, Ukraine's largest egg producer, has received a green light for exporting its shell eggs into Israel, Interfax reported on Thursday (Aug 20) citing Oleksiy Pavlenko, Head of Ukrainian Agricultural Ministry. Apart from Avis, such allowance was received by another domestic private egg producing company.

COMMENTARY

In August 2014, Avangard has received an approval (Kosher certification) from special responsible Israeli commission regarding the quality of eggs and egg products of Avangard's Avis and Imperovo, respectively. Still, that was the necessary condition to allow Avangard exporting its products to Israel. The sufficient requirement is received now via inter-governmental agreement for eggs trading between Ukraine and Israel.

The received allowance will enable Avangard to diversify its egg export sales together with an expected improvement in profitability due to the lucrative egg prices in this importing country. In 2014, almost 70% of egg export volume of Avangard went to the only country of Iraq.

EAVEX RECOMMENDATIONS

EAVEX capital

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Agriculture						
Kernel	KER PW	44.0	56.50	28%	BUY	A hedged approach to doing business, no devaluation risk, limited political risk due to lack of assets in the Donbass, and a U-turn in the farming segment in the 2014-15 season make Kernel's stock our current top investment story.
MHP	MHPC LI	9.4	15.32	63%	BUY	MHP plans to increase its poultry output by 10% YoY to 600,000 tonnes in 2015, operating at full capacity use of its brand-new Vinnytsia complex. The group intends to expand its land bank in Ukraine to 500,000 ha in the medium term from the current 290,000 ha.
Astarta	AST PW	32.2	36.1	12%	HOLD	Astarta has made decisive moves toward diversification (it launched a soybean processing plant in early 2014) and cost optimization (launch of bioenergy complex in 2014). With no assets in the Donbass, Astarta's exposure to UAH devaluation is largely offset by its UAH cost base.
IMC	IMC PW	5.0	9.4	88%	BUY	Quality business & cheap stock are attributes which appropriately fits to the case of IMC. The com- pany's work on deleverage, ongoing land bank expansion program, no exposure to Donbass and high standards of corporate governance more than offset poor liquidity of the IMC's stock.
AvangardCo	AVGR LI	0.9	1.4	56%	SELL	The loss of the company's output in the war-hit Donbass along with UAH devaluation will lead to even lower EBITDA in 2015 after a 57% plunge in 2014.
Ovostar Union	OVO PW	80.0	80.8	1%	HOLD	Ovostar has been one of the hardest-hit Ukrainian public companies by this year's UAH devaluation, as some 70% of its production cost is linked to USD while only 15% of its revenue is earned in hard currencies.
Iron Ore						
Ferrexpo	FXPO LN	65.0	48.0	-26%	SELL	The ongoing issue of global iron ore oversupply along with sluggish growth in demand will likely keep ore prices at depressed levels at least in the short run, boding poorly for Ferrexpo's earnings.
Steel						
Azovstal	AZST	0.80	0.56	-30%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Coke Avdyivka Coke	AVDK	1.05	U/R	-	Susp.	Avdyivka Coke's facilities are located on the front line of the Donbass separatist-occupied territory, and the plant has been experiencing periodic artillery shelling since August 2014. However, the company continues to operate, albeit at reduced capacity.
Specialized Machinery						
Motor Sich	MSICH	2655	5250	98%	BUY	Motor Sich should see its revenue grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012-2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Oil & Gas Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	4.3	U/R		U/R	Regal has repeatedly missed its production targets since 2012.
JKX Oil & Gas	JKX	17.0	U/R	-	U/R	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnergo	DOEN	19.7	U/R	-	U/R	The Donetsk separatist government has nationalized DonbasEnergo's Starobeshevo power plant, which previously accounted for about 70% of the company's installed power-generating capacity.
CenterEnergo	CEEN	7.20	15.00	108%	BUY	CentrEnergo's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Banks						
Raiffeisen Bank Aval	BAVL	0.091	0.24	163%	BUY	Raiffeisen Aval has a conservative risk policy, and we therefore assume it will manage to weather the current banking crisis in Ukraine and start to generate profits starting from 2016. The EBRD is expected to purchase a stake in the institution.

Investing in emerging markets' securities may entail certain risks. There may be limited information available on such securities. Securities of emerging markets' companies may be less liquid and their prices more volatile than securities of comparable developed markets' companies. In addition, exchange rate movements may have an adverse effect on the value of an investment.

This document is based on data we deem to be reliable, though we do not guarantee its accuracy or completeness and make no warranties regarding results from its usage. Forecasts are estimates by specialists working for us, and actual events may turn out to be fundamentally different due to unforeseen circumstances. This document is provided for information purposes only.
