

Market Update

Equity

Locally-listed Ukrainian stocks finished marginally higher on Thursday (Sept 10) as a rather dubious statement from the National Bank that the next IMF loan tranche is expected to arrive in October nonetheless provided some optimism to market players. The UX index inched up 0.2% to 992 points. Most blue chips were inactive, with both Motor Sich (MSICH) and CentrEnergO (CEEN) ending essentially unchanged. Low-liquidity steel related stocks continued to rise. Alchevsk Steel (ALMK) and Avdyivka Coke (AVDK) picked up 1.4% and 1.1% respectively. On the interbank currency market the hryvnia gained 2.2% against the dollar to close at bid/ask of 21.50/21.65 UAH/USD. London-listed iron ore miner Ferrexpo (FXPO) slid 5.0% to GBp 57.50 amid an overall correction on European bourses. In Warsaw trading, Kernel (KER) slipped 1.2% to PLN 43.30 and Astarta (AST) shed 2.1% to PLN 28.50.

Fixed Income

Quotes for Ukraine-17s bonds, which are currently under restructuring process, rose to a 9-month high adding 0.5 p.p. to close at 75.3/77.0 cents on the dollar yesterday. In banking debt papers, UkrEximBank-23d climbed 0.4 p.p. to 72.5/76.4 (13.5%/12.5%).

Moscow: Normandy Format Summit Set for Oct 2 in Paris

by Will Ritter
w.ritter@eavex.com.ua

NEWS

Russian President Putin's press service said on Wednesday that a quadripartite summit meeting of the leaders of Germany, France, Russia and Ukraine will take place on Oct 2 in Paris in the so-called "Normandy format" of talks to resolve the conflict in Eastern Ukraine. The Russian statement also said that discussions in the same 4-way format at the foreign minister level will be held in Berlin this Saturday (Sept 12). The format has its name from the initial summit held last year on the sidelines of the 70th anniversary of the Allied invasion of France.

COMMENTARY

We do not yet have confirmation from Kyiv about this upcoming summit meeting, but assuming it has in fact been scheduled, we suppose that the main topic will be elections in the occupied areas of Donetsk and Lugansk provinces. President Poroshenko has been insisting that the voting (set for Oct 18 in Donetsk and Nov 1 in Lugansk) will not be held in accordance with Ukrainian law, and therefore it would violate the February Minsk ceasefire agreement. The Putin regime, meanwhile, is angling for a softening of Western economic sanctions, and to this end has recently brought pressure to bear on its DNR/LNR surrogates to end cross-border artillery shelling of Ukrainian-controlled territory; the front line is currently at its quietest since the start of the war in April 2014. We are somewhat skeptical that Germany and (especially) France would be willing to impose any additional punitive measures against Russia as long as the Donbass war front remains quiet, regardless of the DNR/LNR election situation. This implies that Poroshenko will have to accept some sort of compromise allowing the elections to go forward. A looming political problem is the difficulty which Poroshenko may have in obtaining 300 votes in Parliament to push through a constitutional change on local autonomy needed to comply with the Minsk agreement. On the other hand, a refusal by Ukraine to pass this legislation would hardly change the situation on the ground, since de-facto, the authorities in the occupied territories already have the powers which the constitutional amendment would "grant" them.

EAVEX RECOMMENDATIONS

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Agriculture						
Kernel	KER PW	43.0	56.50	31%	BUY	A hedged approach to doing business, no devaluation risk, limited political risk due to lack of assets in the Donbass, and a U-turn in the farming segment in the 2014-15 season make Kernel's stock our current top investment story.
MHP	MHPC LI	9.2	15.32	66%	BUY	MHP plans to increase its poultry output by 10% YoY to 600,000 tonnes in 2015, operating at full capacity use of its brand-new Vinnytsia complex. The group intends to expand its land bank in Ukraine to 500,000 ha in the medium term from the current 290,000 ha.
Astarta	AST PW	29.0	36.1	25%	HOLD	Astarta has made decisive moves toward diversification (it launched a soybean processing plant in early 2014) and cost optimization (launch of bioenergy complex in 2014). With no assets in the Donbass, Astarta's exposure to UAH devaluation is largely offset by its UAH cost base.
IMC	IMC PW	5.1	9.4	86%	BUY	Quality business & cheap stock are attributes which appropriately fits to the case of IMC. The company's work on deleverage, ongoing land bank expansion program, no exposure to Donbass and high standards of corporate governance more than offset poor liquidity of the IMC's stock.
AvangardCo	AVGR LI	0.2	1.4	496%	U/R	The terrible loss on EBITDA level of almost USD 100mn for 1H15 makes the company the king among financial reporting fabricators.
Ovostar Union	OVO PW	84.5	80.8	-4%	HOLD	Ovostar has been one of the hardest-hit Ukrainian public companies by this year's UAH devaluation, as some 70% of its production cost is linked to USD while only 15% of its revenue is earned in hard currencies.
Iron Ore						
Ferrexpo	FXPO LN	56.5	48.0	-15%	SELL	The ongoing issue of global iron ore oversupply along with sluggish growth in demand will likely keep ore prices at depressed levels at least in the short run, boding poorly for Ferrexpo's earnings.
Steel						
Azovstal	AZST	0.80	0.56	-30%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Coke						
Avdyivka Coke	AVDK	1.15	U/R	--	Susp.	Avdyivka Coke's facilities are located on the front line of the Donbass separatist-occupied territory, and the plant has been experiencing periodic artillery shelling since August 2014. However, the company continues to operate, albeit at reduced capacity.
Specialized Machinery						
Motor Sich	MSICH	2692	5250	95%	BUY	Motor Sich should see its revenue grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012-2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Oil & Gas						
Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	4.1	U/R	--	U/R	Regal has repeatedly missed its production targets since 2012.
JKX Oil & Gas	JKX	15.8	U/R	--	U/R	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnerg	DOEN	19.9	U/R	--	U/R	The Donetsk separatist government has nationalized DonbasEnerg's Starobeshevo power plant, which previously accounted for about 70% of the company's installed power-generating capacity.
CenterEnerg	CEEN	7.37	15.00	104%	BUY	CenterEnerg's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Banks						
Raiffeisen Bank Aval	BAVL	0.090	0.24	165%	BUY	Raiffeisen Aval has a conservative risk policy, and we therefore assume it will manage to weather the current banking crisis in Ukraine and start to generate profits starting from 2016. The EBRD is expected to purchase a stake in the institution.
