Market Update

Equity

Ukrainian stocks listed in Kyiv finally saw a rebound from their long slide on Wednesday (Sept 30), with the UX benchmark advancing by 2.4% to 872 points. All 10 index components were in the black. Rebounds on the main European bourses helped provide some optimism to local traders. In the steel sector, Azovstal (AZST) gained 3.5% to close at 74 kopecks and Yenakievo Steel (ENMZ) added 4.5% to UAH 17.00. Low-liquidity Avdvivka Coke (AVDK) jumped 8.4% to UAH 1.18. Index heavyweights CentrEnergo (CEEN) and Motor Sich (MSICH) rose 1.3% and 2.5% respectively. On the currency front, the hryvnia strengthened by 1.3% against the dollar on the interbank exchange to close at bid/ask of 21.15/21.25 UAH/USD. London-listed Ukrainian names were mixed. Ferrexpo (FXPO) regained its Monday loss with 6.8% rise to GBp 35.50 while Avangard (AVGR) slid 5.9% to 80 cents. In Warsaw trading, Ukrainian stocks followed the overall positive European impulse, with Kernel (KER) and Astarta (AST) picking up 1.0% and 2.2% respectively.

Fixed Income

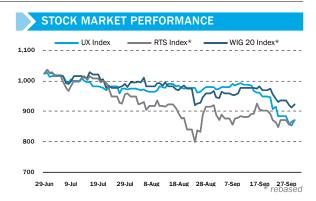

Ukrainian sovereign Eurobonds were marginally higher on Wednesday, with Ukraine-17s and Ukraine-23s inching up by 0.3p.p. and 0.1p.p. to 79.5/80.4 (25.3%/24.5%) and 80.4/81.4 (12.4%/12.2%), respectively (NOTE: sovereign yields are indicative only, as these bonds will not be redeemed at the listed maturity date). In corporate names Avangard-15s rose 3.0p.p. to 45 cents on the dollar.

DTEK Unveils First-Half Operating Loss of USD 230mn

by Dmitry Churin

NEWS

Vertically-integrated thermal power plant operator DTEK reported an operating loss of UAH 5.0bn (USD 230mn) for 1H15, compared to operating profit of USD 350mn in 1H14, according to the company's financial results published on Wednesday (Sept 30). The group's revenue plunged by half in USD terms to USD 2.1bn in the period as a result of the hryvnia devaluation. On the bottom line, DTEK posted a net loss of UAH 20.8bn (USD 972mn) in 1H15, rising from its net loss of USD 480mn in 1H14. The main hit to the bottom line came from a UAH 9.8bn (USD 452mn) foreign exchange loss on borrowings. On the balance sheet side, DTEK reported net debt of USD 2.7bn as of Jun 30. The company's total assets stood at USD 5.0bn on the same date.

COMMENTARY

DTEK's business has been hammered by several factors over the past 18 months, including Donbass war disruptions, Ukraine's macroeconomic downturn, and non-payment from government intermediary EnergoRynok for electricity supplied to separatist-controlled territories. Owner Rinat Akhmetov seems to be stuck in a permanent political quagmire between the Ukrainian government in Kyiv and the authorities of the separatist DNR/LNR territories where much of his business is based. In 1H15, the combined share of electricity sales to EnergoRynok, end-consumers, and exports in DTEK's total revenue amounted to 85%. DTEK stated that assets located on separatist territory represent 30% of its total assets, but these assets brought in only 7% of group's revenues in 1H15, down from 15-20% before the war.

In terms of its debt, DTEK admitted that it has violated its Debt-to-EBITDA Eurobond covenants. The company estimated its Net Debt/EBITDA ratio at 5.2x. The debt is 95% denominated in foreign currencies.

Currently DTEK-18s are quoted at 40.0/41.0 (54.5%/53.1%), reflecting investors' fears regarding the group's ability to return to profitable operations.

				100 400	
EAV	EXI	RECU	MME	NDAII	UNS

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Agriculture						
Kernel	KER PW	45.0	56.50	26%	BUY	A hedged approach to doing business, no devaluation risk, limited political risk due to lack of assets in the Donbass, and a U-turn in the farming segment in the 2014-15 season make Kernel's stock our current top investment story.
МНР	MHPC LI	9.0	15.32	70%	BUY	MHP plans to increase its poultry output by 10% YoY to 600,000 tonnes in 2015, operating at full capacity use of its brand-new Vinnytsia complex. The group intends to expand its land bank in Ukraine to 500,000 ha in the medium term from the current 290,000 ha.
Astarta	AST PW	27.5	36.1	31%	HOLD	Astarta has made decisive moves toward diversification (it launched a soybean processing plant in early 2014) and cost optimization (launch of bioenergy complex in 2014). With no assets in the Donbass, Astarta's exposure to UAH devaluation is largely offset by its UAH cost base.
IMC	IMC PW	5.3	9.4	78%	BUY	Quality business & cheap stock are attributes which appropriately fits to the case of IMC. The company's work on deleverage, ongoing land bank expansion program, no exposure to Donbass and high standards of corporate governance more than offset poor liquidity of the IMC's stock.
AvangardCo	AVGR LI	0.8	U/R	-	U/R	The terrible loss on EBITDA level of almost USD 100mn for 1H15 makes the company the king among financial reporting fabricators.
Ovostar Union	OVO PW	89.0	80.8	-9%	HOLD	Ovostar has been one of the hardest-hit Ukrainian public companies by this year's UAH devaluation, as some 70% of its production cost is linked to USD while only 15% of its revenue is earned in hard currencies.
Iron Ore						
Ferrexpo	FXPO LN	35.5	23.0	-35%	SELL	Downward trend in benchmark iron ore fines prices together with the reduction in pellet-to-fines pellet is exacerbated with frozen cash (USD 174mn) in related to Zhevago bank in September.
Steel						
Azovstal Coke	AZST	0.74	0.56	-25%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Avdyivka Coke	AVDK	1.18	U/R	-	Susp.	Avdyivka Coke's facilities are located on the front line of the Donbass separatist-occupied territory, and the plant has been experiencing periodic artillery shelling since August 2014. However, the company continues to operate, albeit at reduced capacity.
Specialized Machinery						
Motor Sich	MSICH	2415	5250	117%	BUY	Motor Sich should see its revenue grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012-2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Oil & Gas						
Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	3.8	U/R	-	U/R	Regal has repeatedly missed its production targets since 2012.
JKX Oil & Gas	JKX	18.3	U/R	-	U/R	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnergo	DOEN	18.7	U/R	-	U/R	The Donetsk separatist government has nationalized DonbasEnergo's Starobeshevo power plant, which previously accounted for about 70% of the company's installed power-generating capacity.
CenterEnergo	CEEN	5.52	15.00	172%	BUY	CentrEnergo's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Banks						
Raiffeisen Bank Aval	BAVL	0.078	0.24	209%	BUY	Raiffeisen Aval has a conservative risk policy, and we therefore assume it will manage to weather the current banking crisis in Ukraine and start to generate profits starting from 2016. The EBRD is expected to purchase a stake in the institution.

Investing in emerging markets' securities may entail certain risks. There may be limited information available on such securities. Securities of emerging markets' companies may be less liquid and their prices more volatile than securities of comparable developed markets' companies. In addition, exchange rate movements may have an adverse effect on the value of an investment.

This document is based on data we deem to be reliable, though we do not guarantee its accuracy or completeness and make no warranties regarding results from its usage. Forecasts are estimates by specialists working for us, and actual events may turn out to be fundamentally different due to unforeseen circumstances. This document is provided for information purposes only.
