Kyiv-listed stocks opened the new month mixed on Thursday (Oct 1) after a firm rebound in the final trading session of September. The UX index closed essentially unchanged at 872 points. Among the index components, 6 out of 10 stocks ended in the black. UkrNafta (UNAF) rose 0.7% on news that the company paid out a UAH 200mn dividend to the state for FY14, although there is no information that the company paid the dividend to minority shareholders. On the interbank currency market, the hryvnia gained 0.7% to close at bid/ask of 21.00/21.10 UAH/USD, as news about a balance of payment surplus of USD 513mn in August provided some confidence in the national currency. Warsaw-listed issues were little changed; sporadically-traded Industrial Milk Company (IMC) shed 1.5% to close at PLN 5.20.

French Plan for Donbass Elections on the Line at Paris Summit

by Will Ritter w.ritter@eavex.com.ua

NEWS

The leaders of Ukraine, Russia, Germany and France are due to meet later today (Oct 2) in Paris to discuss further implementation of the Minsk peace agreement in Eastern Ukraine. The main issue at stake in the talks is the upcoming elections which the separatist authorities have scheduled for Oct 18 (Donetsk) and Nov 1 (Lugansk). Kyiv has been calling these elections "fake" and demanding their cancellation, and deputy presidential Chief of Staff Konstantin Yeliseyev yesterday claimed that Germany and France are on board with this position in comments reported by Interfax. However, there have been no such public statements from Berlin or Paris, and a French proposal (the "Morel Plan") has been floated that would allow the elections to go forward in the framework of the Minsk process. Various media have reported that Russian President Putin will also meet separately with French President Hollande and German Chancellor Merkel to discuss the war in Syria, where Russia has recent ramped up its military presence. It is unclear at this time whether there will be a bilateral meeting between President Poroshenko and Putin.

COMMENTARY

Despite all the recent hand-wringing from official Kyiv over the Donbass elections, it is clear that Ukraine's negotiating position on this issue is weak; we reiterate our expectation that the West will impose a compromise on Kyiv and that the elections will go forward in another step to "freezing" the Donbass conflict. We even suspect that behind its front of hard-line statements, Kyiv understands that the unsanctioned elections may actually a beneficial development, since Ukraine is itself unprepared to make the political concessions laid out in the Minsk agreement. Overall, we do not expect any major new developments from today's summit meeting. Our basecase post-summit scenario is a continuation of the West's current Russia sanctions, but with no additional measures. At this point, a cancellation of the Donbass elections would be a significant surprise that could shake up the situation on the ground. The elections will doubtless inflame certain elements on the nationalist spectrum of Ukrainian politics, but overall, we believe that the effect of the Donbass negotiations on the general Ukrainian political environment is overrated, with economic issues being far more important.

EAVEX RECOMMENDATIONS

EAVEX capital

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Agriculture						
Kernel	KER PW	45.0	56.50	26%	BUY	A hedged approach to doing business, no devaluation risk, limited political risk due to lack of assets in the Donbass, and a U-turn in the farming segment in the 2014-15 season make Kernel's stock our current top investment story.
MHP	MHPC LI	8.8	15.32	75%	BUY	MHP plans to increase its poultry output by 10% YoY to 600,000 tonnes in 2015, operating at full capacity use of its brand-new Vinnytsia complex. The group intends to expand its land bank in Ukraine to 500,000 ha in the medium term from the current 290,000 ha.
Astarta	AST PW	27.3	36.1	32%	HOLD	Astarta has made decisive moves toward diversification (it launched a soybean processing plant in early 2014) and cost optimization (launch of bioenergy complex in 2014). With no assets in the Don- bass, Astarta's exposure to UAH devaluation is largely offset by its UAH cost base.
IMC	IMC PW	5.2	9.4	81%	BUY	Quality business & cheap stock are attributes which appropriately fits to the case of IMC. The com- pany's work on deleverage, ongoing land bank expansion program, no exposure to Donbass and high standards of corporate governance more than offset poor liquidity of the IMC's stock.
AvangardCo	AVGR LI	0.9	U/R	-	U/R	The terrible loss on EBITDA level of almost USD 100mn for 1H15 makes the company the king among financial reporting fabricators.
Ovostar Union	OVO PW	89.0	80.8	-9%	HOLD	Ovostar has been one of the hardest-hit Ukrainian public companies by this year's UAH devaluation, as some 70% of its production cost is linked to USD while only 15% of its revenue is earned in hard currencies.
Iron Ore						
Ferrexpo	FXPO LN	34.5	23.0	-33%	SELL	Downward trend in benchmark iron ore fines prices together with the reduction in pellet-to-fines pellet is exacerbated with frozen cash (USD 174mn) in related to Zhevago bank in September.
Steel						
Azovstal	AZST	0.74	0.56	-25%	SELL	Non-transparent reporting practices detrimentally affect Azovstal's reported earnings.
Coke Avdyivka Coke	AVDK	1.18	U/R	-	Susp.	Avdyivka Coke's facilities are located on the front line of the Donbass separatist-occupied territory, and the plant has been experiencing periodic artillery shelling since August 2014. However, the company continues to operate, albeit at reduced capacity.
Specialized Machinery						
Motor Sich	MSICH	2385	5250	120%	BUY	Motor Sich should see its revenue grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012-2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Oil & Gas Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	3.8	U/R	-	U/R	Regal has repeatedly missed its production targets since 2012.
JKX Oil & Gas	JKX	18.8	U/R	-	U/R	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnergo	DOEN	19.0	U/R	-	U/R	The Donetsk separatist government has nationalized DonbasEnergo's Starobeshevo power plant, which previously accounted for about 70% of the company's installed power-generating capacity.
CenterEnergo	CEEN	5.50	15.00	173%	BUY	CentrEnergo's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Banks						
Raiffeisen Bank Aval	BAVL	0.077	0.24	211%	BUY	Raiffeisen Aval has a conservative risk policy, and we therefore assume it will manage to weather the current banking crisis in Ukraine and start to generate profits starting from 2016. The EBRD is expected to purchase a stake in the institution.
