

Market Update

Equity

Kyiv-listed stocks saw some moderate gains on Monday (Feb 15), with the UX index edging up by 0.5% to 625 points a day ahead of Parliament's widely-anticipated vote on the Cabinet's 2015 performance. Although many people blame Prime Minister Yatseniuk's Cabinet for the slow pace of reforms in the country and the struggling economy, an obvious alternative coalition has not emerged. Trading volumes on the UX exchange remained subdued. In the steel sector, Azovstal (AZST) rose 2.0% to 30.30 kopecks and Avdyivka Coke (AVDK) picked up 3.8% to UAH 1.13 per share. Quotes for Motor Sich (MSICH) rose back above the UAH 1700 level following a 0.7% gain for the session. In interbank currency trading, the hryvnia saw a second straight session of strong pressure, with the market ignoring a report from the State Statistics Committee that Ukraine had a positive foreign trade balance in full-year 2015 of USD 4.1bn, which was USD 710mn (21%) more than in FY14. The hryvnia weakened by 1.3% to close at bid/ask of 26.83/26.95 UAH/USD. In London, MHP (MHPC) slipped 0.7% to USD 7.45 while Ferrexpo (FXPO) was unchanged at GBP 19.50. Warsaw-listed Kernel (KER) and Industrial Milk Company (IMC) added 3.2% and 2.2% respectively, with the latter finishing at PLN 6.13.

Fixed Income

Most Ukrainian sovereign issues were flat on Monday, with both Ukraine-19s and Ukraine-27s finishing unchanged at 91.3/92.3 (10.8%/10.4%) and 85.0/86.0 (10.0%/9.8%), respectively. Among corporate names, UkrLandFarming-18s added 2.5p.p to 35.0/43.0 (78.5%/63.3%) while Metinvest-18s declined by 0.5p.p. to 39.0/43.0 (64.0%/57.3%).

Ukrainian Banks Post Overall Net Loss of UAH 66bn for FY15

by Dmitry Churin
d.churin@eavex.com.ua

NEWS

The Ukrainian banking system posted a net loss of UAH 66.6bn (USD 3.1bn at the average UAH/USD exchange rate for the period) for full-year 2015, compared to a net loss of UAH 33.1bn (USD 2.8bn) in FY14, according to the data from the National Bank of Ukraine published on Monday (Feb 15). Nonetheless, according to the report, 71 banks posted full-year net profits for a total of UAH 5.2bn, and in December alone, 63 banks posted a total profit of UAH 21.2bn. The NBU also said that starting from 1 Dec 2015, Ukrainian banks had transferred to international accounting standards, including an adjustment in method of counting interest income, which was a major factor in the banking system's overall loss in December of UAH 9.3bn.

The banking system's revenues increased by 19.4% YoY in FY15 to UAH 199.2bn, expenditures increased by 34.4% YoY, to UAH 265.8bn.

The Ukrainian banking system consists of 120 banks (as of end-2015), down notably from 163 banks at end-2014. The banks' total regulatory capital was UAH 124bn (USD 5.2bn) and total assets were UAH 1.275 trillion (USD 53bn) as of 1 Jan 2016. The share of foreign banks in the Ukrainian banking system was 35.3%.

COMMENTARY

The Ukrainian banking system has undergone two years of turbulence amid a so-called "cleanup process". The NBU closed 43 banks during 2015 due to their insolvency, with the system suffering from the overall macroeconomic problems in the country as well as the effective contraction of Ukraine's total territory with the de-facto loss of the most populous cities of the Donbass to separatist control. This resulted in an estimated GDP drop of 10.5% YoY last year and a steep hryvnia devaluation, with the NBU's official exchange rate jumping from 15.77 UAH/USD to 24.00 UAH/USD between the start and end of 2015.

This year is unlikely to be much easier for Ukrainian banks, most of which have to increase their capital to meet capital adequacy requirements. The government has already announced that the two largest 100% state-owned banks, OschadBank and UkrEximBank, will receive a total of UAH 15bn in fresh capital shortly. Banks will begin publishing their FY15 financial reports in late February.

EAVEX RECOMMENDATIONS

Name	Ticker	Price, per share	Target price, per share	Upside, %	Rating	Commentary
Agriculture						
Kernel	KER PW	44.9	57.20	27%	BUY	The group's stock looks undervalued currently even after taking into account an expected decrease in earnings in FY16 due to lowering in seed-crushing margin from an exceptionally high level of FY15.
MHP	MHPC LI	7.5	12.03	61%	BUY	MHP's new soybean processing plant and expected launch of new breeding facilities in early 2016 bodes well for optimization of its poultry production cost. The group's long-term targets are a 50% expansion in poultry output to 900,000 tonnes by 2019 and a 40% land bank increase to 550,000ha.
Astarta	AST PW	30.0	36.1	20%	BUY	Astarta has made decisive moves toward diversification (it opened a soybean processing plant in early 2014) and cost optimization (a bioenergy complex was launched in 2014). Astarta's exposure to UAH devaluation is largely offset by its UAH cost base, and it has no assets in the Donbass.
IMC	IMC PW	6.1	9.4	53%	BUY	IMC's quality agribusiness model suggests to us that the company's stock is undervalued. IMC's work on debt reduction, its ongoing land bank expansion program, and high standards of corporate governance are all positive factors offsetting the stock's low trading volume.
AvangardCo	AVGR LI	0.8	U/R	--	U/R	A massive loss on the EBITDA level of almost USD 100mn for 1H15 has damaged Avangard's financial reporting credibility.
Ovostar Union	OVO PW	92.6	80.8	-13%	U/R	Ovostar managed to increase its EBITDA by 15% YoY to USD 24mn in 9M15, as a drop in devaluation-driven egg pricing in USD terms was offset by strong growth in output, rising export sales, and high hryvnia egg inflation (+60% YoY in 9M15).
Iron Ore						
Ferrexpo	FXPO LN	19.5	11.0	-44%	SELL	The long slide in benchmark iron ore prices, exacerbated by a reduction in the pellet-to-fines premium, has hammered Ferrexpo's earnings in 2015. Gloomy outlook for 2016 suggests even more depressed results in the next year.
Steel						
Azovstal	AZST	0.30	0.56	84%	SELL	Non-transparent accounting practices overseen by majority owner Metinvest detrimentally affect Azovstal's reported earnings.
Coke						
Avdyivka Coke	AVDK	1.14	U/R	--	Susp.	Avdyivka Coke's facilities are located on the front line of the Donbass separatist-occupied territory, and the plant has been experiencing periodic artillery shelling since August 2014. However, the company continues to operate, albeit at reduced capacity.
Specialized Machinery						
Motor Sich	MSICH	1709	5250	207%	BUY	Motor Sich should see its revenue grow with a 2012-2016E CAGR of 9%, reaching USD 1.2bn. For 2012-2016, we forecast an average EBITDA margin of 35% and a net margin of 28%.
Oil & Gas						
Concern Galnaftogaz	GLNG	0.15	0.24	60%	BUY	Galnaftogaz is pursuing a plan to aggressively expand its filling station network.
Regal Petroleum	RPT	2.7	U/R	--	U/R	Regal has repeatedly missed its production targets since 2012.
JKX Oil & Gas	JKX	25.5	U/R	--	U/R	The launch of extraction at JKX's Russian gas field has lifted output, but the company's higher-margin Ukrainian operations continue to lag behind expectations.
Power Utilities						
DonbasEnerg	DOEN	14.5	U/R	--	U/R	The Donetsk separatist government has nationalized DonbasEnerg's Starobeshevo power plant, which previously accounted for about 70% of the company's installed power-generating capacity.
CenterEnerg	CEEN	4.43	15.00	239%	BUY	CenterEnerg's privatization has been postponed, but the company retains a strong fundamental value due to its large installed electricity generation capacity.
Banks						
Raiffeisen Bank Aval	BAVL	0.070	0.24	241%	BUY	Raiffeisen Aval has a conservative risk policy, and we therefore assume it will manage to weather the current banking crisis in Ukraine and start to generate profits starting from 2016. The EBRD is expected to purchase a stake in the institution.
